## Complete In-House Hermetic Capabilities Makes Glenair Your Best Value MIL-DTL-38999 Supplier

### ***QPL'd Hermetics Plus a Wide Range of MIL-DTL-38999 Type Receptacles, Feed-Thrus, and Special Purpose Interconnects—All from Glenair***

The MIL-DTL-38999 Hermetic Connector is an ideal choice for high-pressure/low-leakage applications in air, sea and space environments. Glenair is now on the Qualified Product List (QPL) for all families of MIL-DTL-38999 Series I, II, III and IV Hermetic Connectors. We offer the entire range of wall mount, jam-nut mount, solder mount and box mount receptacles in all the standard shell sizes and insert arrangements. And because Glenair maintains complete in-house capabilities to machine and fire hermetic interconnects, we can offer you outstanding price and delivery on the entire product line.

In addition to our line of QPL'd hermetics we also offer D38999 type commercial connectors in a broad range of styles—many are in stock and ready for same-day shipment.
